

Our Trip To London

18.05-23.05

2017

Day 1.-18 May

At 10 am o'clock all of the trip participants met outside our school and were waiting for bus. When it finally comes (it was 11 am) everybody gets in, takes their places and the trip started. It was planned to get to France by bus and then float to the UK by ferry. We were riding to France all day and night, when everybody fallen asleep. We woke up next day at the way to Calais.

Day 2.-19 May

We're in France. Our bus is riding to Calais where we've got ferry. We've got tickets for 5.45 am. At the harbour in Calais we had to pass the passport check. Everybody was stressed because harbour's workers was talking in English and we were worry that we'll don't know what to say. At least, everything gone right and we get back to our bus to wait for ferry. Unfortunately, it were late. It comes at 6.00 am. Our bus rides in, and we got out for stretch our legs. The ferry was amazing! There were about 4 decks, restaurants, shop, promenade and terrace decks, comfortable cabins with sofas, money exchange place and tilets of course. We were floating about 3

hours to finally get to harbour in UK. We got back to bus and ride to London. There were amazing cliffs and a lot of beautiful green terrains. We were going to sightseeing London all day, and then to parking for waiting for English families to take us.

We've been to Hyde Park and we visited the Kensington Gardens. Also, we've seen the Buckingham Palace where were soldiers in tall black hats and red uniforms. We've been to the Oxford Street (when we had time for shopping) , and Natural History Museum. Unfortunately, a half (and the most interesting part of it) were closed, so it wasn't like in film ("Night at the Museum") . We visit a Science Museum, which were more interesting than the Natural History Museum. There were a lot of old cars, and other stuff like that. The most interesting exhibition was upstairs, and it was named "Who are you?". At the end of the day, we went back to our bus and ride to the quiet parking in the middle of the city, where the English families were going to take us. It was a hundred times better than a hotel, because we can learn much, met new people, see how they live daily, see an English house and food. Me and my friends (Magda, Julia and Emilia) were living with the Tetley's family. Mr. John Tetley come for us by his car and drove us to their house. It was beautiful, and first we were thinking that we're in some kind of a castle. There we met Mrs. Sue Tetley. She made very tasty meal for us and tell us about their day routine, breakfast time, woke up time and showers. We take a shower, prepare everything for next day and went to sleep.

Day 3.- 20 May

We got up and get dressed. Mrs. Sue called us for breakfast. We went down and Mrs. Sue welcomed us with a smile on her face and invited us to eat. At the table were toasts, chocolate, strawberry and lemon jam, milk, cereals, butter and sugar. We ate breakfast and went up to prepare for today. We were ready and Mrs. Sue gave us our lunch packets (crisps, apple, sandwiches, a chocolate bar and a bottle of water) . Ready for next day in London, we get into the car and went to "our" parking. Everybody has arrived, and we get into the bus. Mrs. Basia, our guide tells us what we gonna see and do today, and we started next day of our trip. We've been to the British Museum, Leicester Square, 10 Downing Street, The House of Parliament and Big Ben and Tower of London. After very great day we went back to our families. When we already back to Tetley's house, we gave Mrs. Sue a gift- sweets from Poland. She said it's too much for her, but her six grandchildren may be happy. We went up, take a shower and go to sleep.

Day 4.-21 May

Day 4th of our trip is our last day in London. After breakfast and a little "goodbye" to "our" family we went to the parking, and go to London. We have been to Royal Observatory in Greenwich, Chinatown and we had some time for shopping. We got back to the bus and ride to the harbour for ferry. We float to France.

Day 5.-22 May

We' re in Deutschland for all-day fun in Heide Park. All day we were playing and riding rollercoasters in Heide Park resort.

At the end of the day we got back to the bus and ride to Poland for all night.

Day 6.-23 May

We're in Poland. Back to school we' re at 7.30 am. It was a lovely trip and everybody enjoyed it very much. We hope to get back to London!
